Price Performance

Record profitability supports expansion roadmap

The company operates across recycling verticals including lead, copper, aluminium and plastics, with capacity expansion and value-added products central to its strategy.

- Quarterly revenue, EBITDA, PAT and margins reached record levels, supported by stronger lead and copper volumes.
- Phase 1 of the lead capacity expansion began commercial production, adding 36,000 MTPA capacity.
- Management continues to target higher value-added products, profitability and returns through 2030.

Outlook & Valuation

The supplied presentation points to volume growth from capacity expansion, continued focus on value-added products, and a stated Target 2030 roadmap. The report does not disclose independent estimates, a target price, or an investment rating.
